MEMORANDUM FOR: Chief, Technical Services Staff, DD/P

SUBJECT : Development Proposal for Project [REDACTED]

25X1A

1. Herewith is a project outline from the Army Ballistic Missile Agency. This is the subject of a conference between General Medaris and the DCI. It was proposed that, with some further development, a man-carrying missile of the sort herein proposed might at some future time be useful as an infiltration device.

2. I would appreciate if you would as a matter of some urgency let me have your quick evaluation of its utility for this purpose so that I may pass it on to the Director. I suggest that you consult those individuals in TSS and elsewhere in the DD/P area who, in your opinion, would have a valuable judgment to contribute but that you keep the total number of such persons to a small circle.

SIGNED

RICHARD M. BISSELL, JR.
Special Assistant to the Director
for Planning and Development
